CLAIM(S) FOR LOSS AND PAYMENT FOR SERVICES:

Exhibitor agrees that any and all claims for loss or damage shall be submitted to Expo CCI prior to the conclusion of the show when alleged loss or damage occurred prior to that time and in all cases within 30 days of the conclusion of the show. For claim reporting purposes, the "conclusion" of the show shall be construed as the end of the day on which Exhibitor must vacate the show site. All claims reported after the 30-day period will be rejected. In no event shall a suit or action be brought against Expo CCI more than one year after the date that loss or damage occurred. Payment for services may not be withheld. In the event of any dispute between Expo CCI and the Exhibitor relative to any loss or damage claim, the Exhibitor shall not be entitled to, and shall not withhold payment for Expo CCI services as an offset against the amount of the alleged loss or damage. Any claim against Expo CCI shall be considered a separate transaction and shall be resolved on its own merit.

EXPO CCI's LIMITS OF LIABILITY:

If found liable for any loss or damage, Expo CCI's sole and maximum liability for loss or damage to Exhibitor's materials will be limited to the repair or replacement with like kind and quantity, subject to a dollar amount not to exceed $5.00 (five dollars) per pound based on the weight of the articles for which Expo CCI specifically acknowledges receipt in writing. During such time, the materials will be left unattended. Expo CCI is not, and cannot be, responsible for loss, damage, theft, or disappearances of Exhibitor's materials after same have been delivered to the Exhibitor's booth. Similarly, there may be a lapse of time between the completion of packing and the actual pick up of Exhibitor's materials from the booth for loading onto a carrier. During such time, the materials will be left unattended. Expo CCI shall not be responsible for loss, damage, theft, or disappearance of Exhibitor's materials before same have been picked up for loading after the show. All materials will be checked at the booth at the time of loading using document(s) submitted by the Exhibitor and notations of exceptions to conditions of materials, or piece counts will be made on said document. Expo CCI assumes no responsibility for loss, damage, theft, or disappearance of Exhibitor's materials after same have been delivered to Exhibitor's appointed carrier or agent for transportation after the show. Expo CCI loads materials onto the carrier's truck under the supervision of the carrier driver who checks and signs for the materials. Expo CCI assumes no liability for any materials after the carrier assumes custody of materials. If Exhibitor's designated carrier fails to show by the move-out deadline after a show, Expo CCI shall have the authority to route Exhibitor's shipment via an alternate carrier, or return shipment to a local warehouse for disposition at Exhibitor's expense. Drivers picking up outbound shipments will be sequenced for loading ONLY after a bill of lading is submitted to the Expo CCI Service Desk.

Material Handling Q & A

Questions and Answers

What is material handling (also referred to as drayage)?
Material handling is the process of unloading your freight from your shipping carrier, either at the warehouse or show site, delivering it to your booth, storing your empty containers (empties) if required, returning of your empties at the close of show, and then reloading your freight back onto your shipping carrier.

What is the definition of "freight"?
Any exhibit materials that are shipped or delivered to the advance warehouse or show facility via shipping carrier, POV, or delivery truck.

What is a "certified weight ticket"?
A printed weight ticket from a scale certified or inspected by a government authority such as the Dept. of Agriculture, indicating the date weighed, the weight of the shipment and the vehicle ID of the unit being weighed.

What is the difference between material handling and shipping?
Shipping is the process of carrying your shipment from your location or pick-up area to its destination and also the process of returning your shipment back to your location after the close of the show.

Material handling begins at the time your shipment arrives to the docks (please refer to 'What is material handling?" for the full definition.)

Do I need to order a forklift to unload or reload my freight?
No, please do not order a forklift for unloading/reloading of your materials.

Important Facts About Advance Shipments

All shipments that are addressed to the advance warehouse address (please refer to "Advance Warehouse" shipping labels included in this manual).

EXPO CCI will begin accepting your shipments 30 days prior to first show open day (dates may vary depending on show schedule, please see show information details for receiving dates).

The warehouse will receive shipments Monday-Friday, 8:30am-3:30pm, excluding holidays.

Shipments must arrive by advance warehouse deadline date to avoid a late surcharge. (Please refer to the "Show Information" page included with this manual for deadline date.)

Crates, cartons, skids, fibercases and carpets can be accepted at the warehouse, but DO NOT ship crates weighing over 5,000 lbs., loose/uncrated shipments and/or machinery to warehouse. You must ship those items direct to show site.

All shipments must have a bill of lading or delivery slip indicating number of pieces and weight. Certified weight tickets required.

All shipments must be prepaid, no collect on delivery shipments will be accepted.

Material Handling Charges

What determines how much I am charged?
Charges are based off the weight from your inbound weight ticket included with your shipment.

How do I calculate material handling charges?
Material handling services, whether used completely, or in part, are offered as a package. For example: 185 lbs. = 185 lbs X RATE = $ Amount or minimum charge, whichever is greater.

Will there be any additional charges?
Additional charges may apply. Please review the Material Handling Authorization and Material Handling Information forms included in the manual for all applicable fees.

What is considered a small package?
Shipments that arrive via small package carrier such as FedEx Express Service, UPS small package service or DHL small package service AND do not have a certified weight ticket included with shipment. This will typically refer to any small packages weighing under 50 lbs. Please refer to the Material Handling Authorization for the weight range of a small package

How do I calculate my small package shipment?
Charges for specialized carrier shipments are based on per carton, per delivery.
Example: I'm shipping 3 packages via FedEx, how much will I be charged?
3 x small package fee = $ amount charged.

Please be advised that your whole shipment may not arrive to its destination at one time. Therefore, you will be charged per each delivery.

Weights from multiple shipments delivered on the same day from the same carrier will be combined. In these cases, standard material handling rates may apply, based on total weight.

Crated - Uncrated - Special Handling

What are CRATED materials?
Materials delivered that are skidded or in a container that can easily be unloaded/ reloaded with no special handling required.

What are UNCRATED materials?
Materials delivered that are loose, pad-wrapped or unskidded without proper lifting bars and/or hooks.

What is SPECIAL HANDLING?
Shipments delivered that require extra labor for stacking or unstacking containers on a truck (cubic loading), tarping or untarping freight o containers, or rigging pieces for loading or unloading on a truck or from the ground, or other circumstances requiring the rehandling of materials.

Important Facts About Direct Shipments

What are direct shipments?
All shipments that are addressed directly to the exhibit facility (please refer to "Direct to Show" shipping labels included in this manual).

Shipments must arrive during exhibitor move-in times only. Do not ship direct to show site in advance. If delivery cannot be guaranteed to arrive during exhibitor move-in, shipment must go to advance warehouse.

All shipments must have a bill of lading or delivery slip indicating number of pieces and weight. Certified weight tickets required. Crates weighing over 5,000 lbs. or loose/uncrated shipments must be shipped direct to show site to arrive during exhibitor move-in times. **All shipments must be prepaid, no collect on delivery shipments will be accepted.**

Liability Insurance

What is and why would I need liability insurance?
Accidents happen, therefore, most show organizers and facilities require liability insurance. Please refer to your booth contract for exact minimums required. Please make sure your materials are covered from the moment they leave your company location to the time they return after the close of the show.

Outbound Shipments

You must complete an EXPO CCI Bill of Lading (BOL) for all outbound shipments. A BOL will be distributed at show site if all services have been paid in full, or you can request one at the customer service desk. Upon completion of packing and labeling of your materials, complete the BOL with all required information, and return to customer service.

If you have questions on how to complete your Bill of Lading (BOL), please ask a EXPO CCI customer service representative located at the customer service desk. If you are NOT using the designated shipping carrier, you must call your carrier with pick-up information. If your carrier fails to pick up your shipment, EXPO CCI will either reroute your freight through the carrier of our choice or return to the local warehouse (whichever is indicated on your BOL).

Area Work Rules

To assist you in planning for your participation in this event, we are certain you appreciate knowing in advance that union labor is required for certain aspects of your exhibit handling. To help you understand the Area Work Rules, we ask you to read the following:

FREIGHT HANDLING

The Local Union claims jurisdiction over the operation of all mechanized material handling equipment and all unloading and reloading from the loading docks. An exhibitor may move materials from the designated ground unloading area. Exhibitor is not allowed to use mechanized equipment to move their on freight. (i.e. no forklifts, pallet jacks or etc.) When exhibitors choose to hand-carry in accordance with the foregoing, they are not permitted access to the loading dock area(s).

EXPOCCI is responsible for receiving and handling all exhibit materials and empty crates. It is our responsibility to manage loading docks and schedule vehicles for the smooth and efficient move-in and move-out of the exposition.

EXHIBIT INSTALLATION AND DISMANTLING

We have a contract with the Local Union which claims jurisdiction over the installation and dismantle of tradeshows and exhibits. Full-time employees of the exhibiting companies, however, may set their own exhibits without assistance from this local. Any labor services that may be required beyond what your regular full-time employees can provide, must be rendered by the Union. Labor can be ordered in advance by returning the Labor form, or at show site, at the service desk. Proof of full-time employment status may be requested by the Union Steward of any personnel working on your booth.

GRATUITIES

We request that exhibitors do not tip (such practices as giving money, merchandise, or other special consideration for services rendered) employees. Do not give coffee breaks other than mid-morning and mid-afternoon, when union employees have fifteen minute paid breaks. Any attempts to solicit gratuity by an employee for any service should be reported immediately to a supervisor. Employees are paid at an excellent wage. Tipping is strongly discouraged and is not an accepted company policy.

EXPO HOLD HARMLESS AGREEMENT / VEHICLE SPOTTING

The Association and Exhibitor will hold harmless EXPO Convention Contractors, for any damage or injury resulting from vehicle spotting. Damage or injury to Vehicle / Driver / 3rd Party Personnel / Display.

IN GENERAL

Craftsmen at all levels are instructed to refrain from expressing any grievances or directly challenging the practices of any exhibitor. It is recommended that any questions arising with regard to union jurisdiction or practices be directed to an EXPO management representative.

FAQ Frequently Asked Questions

DOES SMART CITY NETWORKS PROVIDE COMPLIMENTARY WI-FI?

Yes! Smart City Networks provides complimentary Wi-Fi in most designated public areas of the facility, such as the concourse lobbies and food courts. Check with your specific venue for locations. This service is made available to approximately 30 million guests, visitors, and attendees at our convention centers throughout the country. There is no requirement to purchase a Smart City Networks service in order to take advantage of the complimentary Wi-Fi.

WHY DOESN'T SMART CITY NETWORKS PROVIDE COMPLIMENTARY WI-FI IN THE EXHIBIT HALLS?

Exhibit halls are not public areas since this space is typically licensed to a company, government agency, or trade association for a private event. The space license agreement governs the availability of a range of services for the event and the license may or may not call for complimentary Wi-Fi services.

WILL MY PERSONAL HOTSPOT (MI-FI) WORK IN YOUR BUILDING?

Yes – however, the capability of your personal mobile hotspot is limited by your cellular carrier by the spectrum and Internet bandwidth capacity they have made available. Cellular carrier signals penetrate into a facility either from a nearby cellular tower or via an in-building Distributed Antenna System (DAS). It is important to remember that your personal mobile hotspot is obtaining a wireless signal from a shared cellular network, so service may be disrupted or become unreliable due to user density and demand on the carrier's network. In all cases, you have the option to take advantage of the complimentary Wi-Fi throughout the public areas, or if you choose, you can purchase an upgraded package based on your service requirements.

WHAT MUST BE IDENTIFIED ON MY FLOORPLANS?

Floor plans should include the surrounding booth numbers for orientation, measurements and easy identification of all required end location(s). Be sure to distinguish your main distribution line (MDL) and additional patch cables. Please reference Smart City's Communications Floorplan Worksheet.

TIP: **Most of our venue's data jacks originate from a floor pocket. Be sure to submit a completed floorplan prior to the first day show move-in to avoid any additional labor charges.**

DO YOU OFFER INCENTIVE RATES?

Yes! Orders received along with payment by the incentive deadline date will receive our early incentive pricing.

WHY ARE ROUTERS NOT ALLOWED ON A SHARED NETWORK?

Many times, Smart City has found that routers on a shared network are installed incorrectly, which can cause problems for other users of the network. Additionally, an accurate count of the number of devices on the network is required to determine the appropriate network size and bandwidth available to the network. For more information and to request the build-out of a special system to meet your needs, contact our team today for a quote.

CAN I PROVIDE MY OWN SWITCH AND/OR CABLING?

Yes, you can provide your own switch and patch cables for in booth cabling. Unless otherwise mandated by the venue.

Please Note: Connectivity can be guaranteed only to the point where Smart City Networks' services originate in the booth. Smart City Networks cannot guarantee service on customer/exhibitor-provided cable(s) and/or equipment. Any request for trouble diagnosis or problem resolution found not to be the fault of Smart City Networks (such as faulty equipment or damaged cable) may be billed to the exhibitor at the prevailing labor rate.

HOW MUCH BANDWIDTH DO I NEED?

To identify how much bandwidth you should require, please reach out to a technical representative in your organization, review your program specifications listed with any demonstrations or downloads you plan to run.

WHAT DOES SD, HD, AND UHD STAND FOR?

SD, HD, and UHD are the abbreviated names of three video streaming formats. The basic difference between each of the formats is the number of pixels comprising the video image. The greater the pixel count the sharper and more detailed your video will be.

FORMAT	RESOLUTION	BANDWIDTH REQUIRED
Standard Definition **(SD)**	720x480	3.0-5.0 Mbps
High Definition **(HD)**	1280x720 & 1920x1080	5.0-8.0 Mbps
Ultra High Definition **(UHD)**	3840x2160	25 Mbps
